AEV PROSPECTOR STANDARD FEATURES

AEV PREMIUM FRONT BUMPER

We designed this Front Bumper System with form and function in mind. Aesthetics are important, but the product must first and foremost provide a purpose. From the massive ductile iron tow loops to the 4mm thick stamped steel face, this Front Bumper System provides superior front end protection while also safely accommodating a 16,500lb winch to assist with vehicle recovery.

WARN WINCH

Warn winches are known as being among the best in the industry. The AEV Prospector comes standard with Warn's 16,500 lb. powerhouse for safe and successful recovery off road. Power Wagons will retain the factory installed Warn Winch.

FRONT BUMPER LIGHTING

The AEV Prospector retains the OEM fog lights (if equipped). Vehicles not equipped with OEM Fog Lights include a pair of Vision X 100W Tungsten Halogen Fog Lights as standard equipment. These fog lights are available as an upgrade on all trim levels equipped with OEM Fog Lights.

Premium Front Bumper w/ Warn Winch and OE Fogs

Premium Front Bumper w/ Warn Winch and Vision X Lighting

SALTA HD

KATLA

AEV DUALSPORT SC SUSPENSION

The AEV 3" DualSport SC Suspension System for the 2014+ Ram 2500/3500 is a true dual purpose suspension system that provides greater performance off-road, while also improving driver comfort and vehicle handling characteristics on the road. No matter where you drive your truck or how you use it, you can always count on your DualSport Suspension-equipped Ram to remain comfortable, balanced and ready to explore.

AEV WHEELS

SALTA HD WHEEL

Inspired by the legendary Dakar Rally and named after the Argentine city along its route, the Salta HD combines both modern styling and rugged durability in one great looking package. Available in a Matte Black finish.

KATLA WHEEL

Named after the famous Icelandic volcano, the Katla's design was inspired by AEV's popular Savegre wheel for the JK Wrangler, but adapted for use on 3/4 and 1-ton Ram trucks. Available in a Matte Black finish.

BFGOODRICH 37" KM2 MUD-TERRAIN TIRES

BFGoodrich Mud-Terrain T/A KM2 tires feature a crawler-inspired tread design with great looks and a dual grooving pattern for incredible on and off-road performance. Includes a full-size spare mounted in the bed. Factory spare remains under the bed.

AEV WINDSHIELD BANNER

Exclusive to vehicles built by AEV, the name "American Expedition Vehicles" displayed across the top of the windshield is a signal of the quality and craftsmanship that went into the Prospector.

AEV ANTI-GLARE HOOD DECAL

Stand out and reduce glare with AEV's matte grey hood decal.

AEV PROSPECTOR BADGE

A classic symbol of an adventurous spirit and a desire to strike out on your own. The shovel and pick axe adorn the tailgate of Rams built ONLY by AEV.

AEV GRILL AND TAILGATE BADGING

The standard Ram head shields are removed to make way for the AEV Bison.

AEV CLUSTER BADGE

Molded AEV logo on the vehicle's instrument panel.

PAINTED GRILL AND REAR BUMPER

All AEV PROSPECTORS leave Detroit with a satin black grill and rear bumper.

BLACK FENDER FLARES

Black accents continue over the wheel wells to complete the look.

AEV LOGO HEADRESTS

In cloth or leather to match your vehicles interior, these headrests sport AEV's classic bison logo.

AEV BUILD PLAQUE

The build plaque is located inside the door jam on the passenger side and authenticates all genuine AEV vehicles. Includes individual serial number and year of manufacture.

AEV Windshield Banner and Anti-glare Hood Decal

AEV Grill and Tailgate Badge

AEV Raised Air Intake

Vision X Off-Road Lights

Vision X Light Bar

AEV PROSPECTOR OPTIONS**AEV RAISED AIR INTAKE**

Inspired by heavy duty industrial and military applications around the world, the AEV Raised Air Intake is designed to provide your hard working engine with the coldest and cleanest air charge possible, maximizing engine performance and increasing longevity—even in the most severe environments. Available with either an Air Ram or Cyclonic Pre-Filter.

VISION X HALOGEN LIGHTS

The Vision X Halogen Light is a great option for those looking to upgrade their factory fog lights, but not wanting to go with an LED light. These 100W lights feature an oversized glass globe for better heat dissipation and a heavy duty, pure tungsten filament for longer bulb life. Standard on Tradesman trucks, optional on all other trim levels.

VISION X LED OFF-ROAD LIGHTS

Capable of shining 2,500 feet, the 6.7" Vision X LED Light Cannon is a leader in long distance. A single 50-watt Top-Binned Luminus LED outputs 2,240 Raw Lumens from each light. Vision X engineered the LED Light Cannons to utilize a hybrid material housing of both Polycarbonate and Aluminum, giving you strength, lightweight, and a polished looking housing.

VISION X LIGHT BAR

No matter what kind of weather conditions you're faced with, the Vision X Xmitter Prime LED Light Bar will keep your path well lit. It's able to function in temperatures all the way down to -40 Fahrenheit, not to mention temps as high as 176, making it more than capable of coping with the coldest winters and hottest deserts (and then some). Pumping out nearly 1,000 raw lumens per inch, the Xmitter Prime is unmatched in terms of effective power and performance.

BFGOODRICH 37" KO2 ALL TERRAIN TIRES

The BFGoodrich All-Terrain T/A KO2 was designed to deliver go-anywhere traction along with outstanding durability, great wear and year-round traction, even in snow.

AEV STANDARD LEATHER INTERIOR UPGRADE

AEV leather seat covers (front and rear) with accent color stitching and AEV logo. Utilizes the same design pattern as the factory.

AEV F-1 STYLE LEATHER INTERIOR UPGRADE

AEV custom F-1 style leather seat covers (front and rear) are made from a higher grade leather than our Standard Leather Interior. Black with Silver stitching and AEV logo. Available on Black/Grey interiors only.

AMP RESEARCH RETRACTABLE RUNNING BOARDS

Fully powered and illuminated, AMP Research Retractable Running Boards retract beneath the underside of your truck and extend outward automatically when needed.

MOPAR TUBE SIDE STEPS

MOPAR Premium Tubular Side Steps are constructed of lightweight aluminum and include molded end caps to accent your vehicles styling. These MOPAR Tubular Side Steps provide a wide, skid-resistant stepping surface for easy vehicle entry and exit. May not be compatible with OEM or Aftermarket Front Splash Guards.

MOPAR SPLASH GUARDS

Keep flying mud and rocks under control. Available in the front, rear, or both.

DECKED IN-BED STORAGE SYSTEM

The Decked in-bed storage system incorporates two waterproof, bed-length drawers which roll out to provide easy access to tools, equipment and additional gear. The deck of the storage system is built from 100% recycled high-density polyethylene, co-molded to a steel sub frame providing a 2,000 lbs. load capacity. Ordering the Decked System will delete the standard full-size spare and is only available on 6'4" beds without Ram Box.

DECKED ACCESSORIES

- Drawer Lock Set w/ Key
- Drawer Divider Set
- Drawer Tray Set
- Drawer Drain Plug Set
- Core Trax Tie-Down (58")
- T-Track Tie-Down (58")

AEV TONNEAU COVER

The AEV Ram Tonneau Cover is the perfect option for additional cargo protection and security. It features a user friendly, tri-fold design which eliminates the need to stretch the tarp or fight with snaps in cold weather conditions.

REAR VISION SYSTEM

AEV's Rear Vision System provides enhanced visibility while backing up day or night. These OE-quality cameras integrate seamlessly with the factory stereo systems or as standalone auto dimming rear view mirror.

DIFFERENTIAL GEAR UPGRADE

Upgrading the gear ratio will improve the vehicle's acceleration and performance when increasing tire size. Consult your AEV representative for recommendations based on vehicle package. **Upgrading the gear ratio is required on diesel trucks and gas trucks without 4.10 gears from the factory.**
