

SMALL ANIMAL LIVESTOCK TRAILERS

The American Standard in Aluminum Trailers

SMALL LIVESTOCK TRANSPORTATION

**SUPERIOR QUALITY
YOU DESERVE IN:**

- SHOWMASTER
- DUAL LINE
- POPPERS & TOPPERS
- CUSTOM SHOW TRAILERS
AND MORE!

**THE CLOSER YOU LOOK,
THE MORE YOU'LL
LIKE ALUM-LINE.**

When you choose ALUM-LINE, you are buying unmatched quality, strength, and lifelong value not found in other trailers. Don't be fooled by others that claim to be all-aluminum. You need to look deeper. ALUM-LINE is built with two separate mainframe extrusions – a roof rail to provide upper strength, and a bottom rail that builds a strong foundation for our tongue and groove aluminum flooring and vertical super-structure.

Our trailers are built for commercial use – you'll find more welding and workmanship in the details. We pride ourselves on the little things: stainless steel fasteners, overhead electrical wiring, quality built axles, tires, and a top notch light package.

ALUM-LINE – a safe and worry-free trailer you can buy with confidence.

When Your Work Truck Demands The Best... **ALUM-LINE**

Looking good on the road, at the show, and on the job site is important. It's also important to have a truck body that will take the demands of hard work year in and year out. That's what ALUM-LINE is all about.

When you want to purchase the best value in a long term truck body, an all-aluminum body from ALUM-LINE is the only way to go. It will save you money. ALUM-LINE bodies are built strong yet, are light weight. They require minimum maintenance and will look great now and in the future.

Why are ALUM-LINE bodies better than others on the market? We use all aircraft grade heavy-duty aluminum extrusions. This gives you a professional looking and performing product, not an off-the-shelf imitation. Check out our main framing and the thickness of our walls. You will see that your body is built to last a lifetime. Your truck body is essentially custom. You choose the design that's right for you along with options that give your truck body that personal touch.

Most importantly, we have nearly 30 years of experience in the design and fabrication of ALL-ALUMINUM transportation systems. This ensures you of a proven product that's backed by our strong commitment to customer service and satisfaction.

ALUM-LINE truck bodies carry a five year workmanship warranty and 10 years on aluminum extrusions. Further details for each body line are available upon request.

SO, WHEN YOU NEED YOUR WORK TRUCK TO REALLY WORK FOR YOU... GET ALUM-LINE... IT WILL GET THE JOB DONE FOR YOU WITH A LIFETIME OF SERVICE.

Work Trucks

by ALUM-LINE

IT'S WH

1. Truck bed with boxes on top and below. Finished with tapered rear corner, side skirting, louvers and lighted bulkhead.

2. Equipped with optional above bed tool boxes, upright front tool boxes, rear step bumper, louvers and short sides. You can build a body your way.

3. Component body. With our special front corner cutouts, you can have tall upright boxes yet the strength of a platform body. Extra storage includes removable top boxes and small boxes behind the wheels. A lower price alternative to a service body.

"Where Workmanship Lasts A Lifetime"

AT THE WELL DRESSED W

4. Beds can be designed with a frame cut-out to attach special use equipment. Side boxes can be built any height. Beds built tough enough for medium-duty trucks.

5. Overhead ladder racks can be made permanent or removable. Side boxes are available with double drop-down doors. Large front storage boxes.

6. Special use service trucks can be designed to fit your need. ALUM-LINE has designed a variety of bodies for all your contractor needs.

7. Our most popular truck bed package. Lighted bulkhead, tapered sideboards, underbody tool boxes, mud flaps, and fifth wheel trap door.

8. Another choice of sides can be matched to almost any inch increment you desire. All hitches used with ALUM-LINE beds are attached to the frame of the truck.

9. Give your bed a personal touch. Extra boxes, rub rail, wheel flairs, plus more. All types of lengths and widths available.

WORK TRUCK WEARS

10. Standard package includes open window bulkhead, light package and stake pockets. Everything you need for a classy look. Popular options include louvers and lights, rub rail and under side boxes.

11. We will build any size bed to fit your dimensions. Light weight beds are an ideal alternative to pickup boxes and give you more universal uses. Pictured with tapered rear corners.

12. The "Xtreme" body. Our combination service body and Pro-Hauler gives you a stylish body with lots of storage.

13. Truck Beds can be designed for any special needs. The above bed is equipped with fold-down ramp..

14. ALUM-LINE will build beds up-to 24' in-length and 20,000 lb capacities. Special strength features include: 1/2" thick outside rail, 3" I beam, 1/4" wall cross members on 12" centers, and 1 1/4" extruded flooring. Put our bed to the test... You will be very satisfied. All types of loading ramps available.

15. Truck bed with 36" high stake rails. Stake racks are available in any height or in solid sides. Sides are light weight and are easy to install or remove. Rear doors can be pull-out or swing-out design. Used with rub rail with stake pockets.

HOIST BEDS

16. ALUM-LINE dump body platforms are heavy duty. Special strength options include; 1/2" thick outside framing with 1 1/4" extruded flooring. Channel long sills and heavy duty bulkheads complete the package.

17. Bed capacities up-to 12 ton are available. Our extruded flooring offers easy dumping. Permanent solid sides come in a variety of heights and in either smooth, extruded, or diamond plate material.

18. Special dump body set up using a "Back Pack" behind the cab. "Back Packs" provide extra storage for large tools, shovels, etc. Please note the hinged sides for multiple use.

SERVICE AND RESCUE BODIES

19. One of our most popular set ups. Compartment height at 40" with over-head ladder rack and step bumper. Other popular options include 4" deep flip top compartments on top, adjustable shelving, slide out trays, painted doors and much more. All models available in smooth or treadbrite aluminum construction.

20. Service body with extra height. Multiple compartments per side and finished 1.125 smooth aluminum painted sides. Rear step bumper and rolled fender flares. More information is available on our complete line.

21. All types of customizing available including shelving, transverse compartments, roll out trays, double pan doors, door stops, special latches, hanging hardware, and interior lighting. Our service bodies have been used and approved by the U.S. Army.

PRO-HAULERS

22. A very attractive bed that is loaded with standard features. Such as: heavy-duty headache rack with louvers and lights, tapered sides and rear corners. Choose from smooth or diamond plate sides. A show stopper everytime. More information is available on our Pro-Hauler lineup.

ALL ALUMINUM TRUCK BEDS

FIRE & RESCUE TRUCK BODIES

The American Standard in Aluminum Fire Bodies

FIRE & RESCUE TRUCK BODIES

MEETING YOUR NEEDS WITH:

- **RESCUE**
- **QUICK ATTACK**
- **GRASS & BRUSH BODIES**
- **TOOL BOXES**
- **COMMAND CENTERS**
- **WALK-IN UNITS**
- **ALL TYPES OF TRAILERS**
- **BOXES**

AND MORE!

**THE CLOSER YOU LOOK,
THE MORE YOU'LL
LIKE ALUM-LINE.**

When you choose ALUM-LINE, you are buying unmatched quality, strength, and lifelong value not found in other fire and rescue truck bodies. Many custom extrusions and a proven design will give you a dependable and safe body for many, many years. With our years of experience we will build a body to fit your exact needs. From walk-in units, enclosed rescue, or combination brush and rescue bodies, we will build to fit your departments needs. We build for a lifetime of use – you'll find more welding and workmanship in the details. We pride ourselves on the little things; stainless steel fasteners, enclosed electrical wiring, quality components, and a top notch light package.

**ALUM-LINE – safe and worry-free
bodies you can buy with confidence.**
